

# Where Innovation takes flight The Right Location for Forward-Thinking Companies

In Titusville, innovation doesn't sit on the sidelines. We're positioned in the heart of Florida's aerospace and advanced manufacturing corridor — one bridge away from the launchpads.

- Closest full-service community to Kennedy Space Center and Cape Canaveral
- Connected to global supply chains by rail, air, and highway
- Prime access to Port Canaveral for shipping and logistics
- Fast-track permitting and development support to keep projects moving

## A Skilled Workforce Ready to Build What's Next

Innovation takes people — and here, we've got the right talent for the job. Our workforce is trained and ready for the demands of high-tech industries.

## 72 orbital launches

Cape Canaveral and KSC broke their record with 72 launches in 2023

- Engineers, machinists, technicians, and skilled trades available now
- Strong pipelines from Eastern Florida State College and apprenticeship programs
- Targeted training aligned with aerospace, defense, manufacturing, and technology sectors

## Plugged Into the Industries That Drive Growth

Titusville sits at the center of the action — not watching from the outside. Our community is fully connected to the companies and contractors shaping the future.

- Aerospace, defense, advanced manufacturing, and high-tech clusters in the region
- Close partnerships with NASA, SpaceX, Blue Origin, and supply chain leaders
- R&D-friendly environment with access to innovation assets and partners
- Supportive ecosystem that understands the pace and needs of your business

## Business-Ready Support That Clears the Way

When you come to Titusville, you're not just getting a site. You're getting a team that's here to help make things happen.

- Direct access to permitting, leadership, and local resources
- Proactive problem-solving to avoid bottlenecks
- Leadership that understands what it means to say yes — and follows through
- Incentives and programs designed to support growth and hiring
